Advice & Instructions

- Monitor fasting blood sugar daily — target: 80-130 mg/dL.
- Check BP every morning — target: below 130/80 mmHg.
- Strict low-salt, low-sugar diet. Walk 30 minutes daily.
- Carry a sugar source (glucose tablet/candy) in case of low sugar symptoms.
- HbA1c test before next visit.
- Report any unexplained weight loss, excessive thirst, or blurred vision.

Next Visit: 4 weeks

Signature & Stamp

Valid for 30 days. Dispense as written. Keep medicines out of reach of children.
